Cats That Have Only Two Legs. Linoln Park "zoo" probably will have two remarkable additions to its large family of animals within the next few days. These are a pair of :wo-legged cats which N. Slotkin. 236 1-2 Madison street, contemplates placing with Cy De Vry, keeper of he zooligical garden. The cats were brought from Sydney, Australia, and trrived in Chicago Saturday. In thape of body, except for the absence of hind legs, they are the exact procotype of the ordinary house cat. On secount of possessing only two legs they resemble to some extent the tangaroo, yet differing from that aninal, they walk on their front legs, which are of normal size and shape. Their gait may be liekend to that of tight-rope walker as they gracefully poise themselves, retaining perfect equilibrium. They possess no hips or joints of any kind which may have been intended for the missing legs. the spinal column of each proceeding without interruption to the tail. They were examined with great interest by certain Gereian professors at Bremen while en route, and they, it is said, were unable to offer any explanation for the deformity, as the cats were

Justice William C. Gaynor, of the New York Supreme Court, was the principal speaker at the laying of the sorner stone of the New York Press Club's new building. He spoke in behalf of the freedom of the press, arging the right of the newspaper to eriticise freely those in public office. He said in part: 'To exercise this privilege of criticism is not only the right of newspapers, but its zhief duty and office as well. This is the country's highest safeguard against corruption and wrong-doing. By criticism, of course, I do not mean To be abusive, rough or unfair, is justly regarded by all good newspaper men as unethical and improper. One of the modern newspaper's greatest services should be the showing up of the demagogue and the loose producer of evil, whose promiseuous denunciation of all successful business interests has done much to bandicap the country. ### Races Should Be Kept Apart.

"There should be no admixture of racial stocks. Each race should maintain its own individuality. The experience of civilization shows that racial stocks are never mixed with profit and that such unions do not bring forth the best and strongest children. There is no reason, however, why the races cannot live together, side by side, in perfect peace and amity. In the case of the negroes kept apart in every respect. Inc.
South has a wise policy. I believe that Booker T. Washington has the ideals and that Dubois is injurated with his ideals and that Dubois is injurated with his ideals. I am my own pilot," was the south reply. and the whites, the races should be in our civic life by masses of voters who know nothing of liberty. Take the Irish, they say themselves that at home they had ac experience at self-government. Our problem is to show the newer arrivals that it is to their interest to have efficient government and not lavish expenditure."-President Elot of Harvard University in Montgomery, Ala.

### DIDN'T REALIZE How Injurious Coffee Really Was.

Many persons go on drinking coffee year after year without realizing that it is the cause of many obscure but persistent ailments.

The drug-caffeine-in coffee and tea, is very like uric acid, and is often the cause of rheumatic attacks which, when coffee is used habitually, become chronic.

A Washington lady said recently: "I am sixty-five and have had a good deal of experience with coffee. consider it very injurious and the cause of many diseases. I am sure it

causes decay of teeth in children. When I drank coffee I had sick spells and still did not realize that coffee could be so harmful, till about a year ago I had rheumatism in my arms and fingers, got so nervous I

could not sleep and was all run down. "At last, after finding that medicines did me no good, I decided to quit coffee entirely and try Postum. After using it six months I fully recovered my health beyond all expectations, can sleep sound and my rheu-matism is all gone." "There's a Rea-

INTERNATIONAL LESSON COM-MENTS FOR MARCH 21.

Review of the Lessons For the First Quarter - Golden Text: "They That Were Scattered Abroad Went Everywhere Preaching the Word." Acts 8:4.

The lessons of the quarter extend over a period of pernaps ten years, from Thursday, May 18, A. D. 30, to perhaps A. D. 40. They are all con-cerned with the things that Jesus continued to do after His resurrection through the Holy Spirit. A profitable review can be conducted along the

line of the power of the Risen Christ Lesson I. shows us the Risen Christ as the Giver of the Holy Spirit. Lesson II. again shows us the Risen

Christ as the Giver of the Holy Spirit. Lesson III. snows us the Risen Christ exalted, receiving from the Father the promise of the Holy Ghost, and pouring Him forth on the church Lesson IV. shows us the Risen Christ healing and making strong the

men born lame.

Lesson V. shows us the Risen Christ bestowing the Holy Spirit upon His faithful servants and making them fearless in the presence of great peril. It also shows us the Risen Christ as the only One in whom there

is salvation.

Lesson VI. shows us the Risen Christ executing judgment in His

Lesson VII. shows us the Risen Christ delivering His faithful servants from peril and filling them with dauntless courage.

Lesson VIII. shows us the Risen

Christ imparting power and grace to His faithful servant. It also shows us the Risen Christ in the glory at the right hand of God.

Lesson IX. shows us the Risen Christ bestowing the Holy Ghost in answer to the prayer of His servants. Lesson X. shows us the Risen Christ winning a man of great au-

thority to Himself.

Lesson XI. shows us the Risen Christ making whole the sick and raising the dead.

#### Our Two Natures.

There are two natures in man that are as distant as day and night. With the old Adam within us if we do not keep him down in the place of death he brings us into captivity.

It takes us about all our lifetime to find out who and what we are, and when we think we know something happens to make us think we are farther away than when we started The heart is deceitful above all

things.
In the sixth chapter of Romans it is written: "Knowing this, that our old man is crucified with Him, that the body of sin might be destroyed, that henceforth we should not serve sin. For he that is dead is freed from sin." And in the eleventh verse there are just three words to be es-pecially considered: "Reckon your-selves dead." If we were really dead we would not have to reckon our-selves dead. Judicially we are dead, but in reality we are still fighting the world, the flesh and the devil. Some people seem to think they have got away from the flesh, and that the are soaring away in a sort of seventh heaven, but they getback again soon-er or later. You cannot make the flesh anything but flesh. It will be flesh all the time.—D. L. Moody.

### His Own Pilot.

A bright boy, who loved the sea, entered on a sailor's life when very young. He rose to quick promotion, and while quite a young man was made the master of a ship. One day a passenger spoke to him upon the voyage, and asked if he should an-

ing he took a narrow channel to save distance. Old, bronzed, gray-headed seamen turned their swarthy faces to the sky, which boded squally weather, and shook their heads. We need not describe a storm at sea. Enough to say that the captain was ashore earlier than he promised — tossed sportively upon some weedy beach, a lead thing that the waves were wear and his queenly ship and costl freight were scattered over the surfy cres of an angry sea .- Expositor.

### A Sign of Greatness.

The highest greatnessisthat which is unconscious of itself. The very forth-putting of an effort to be great in any direction indicates that we lack that greatness. How true this is in art, for example, every one has had an artist among his friends can tell. The greatest achievements made by the sculptor or painter have hade by the sculptor or painter have been those in which they have been least conscious of their greatness. So, too, in the Christian life, which is the grandest of all arts, we have not yet attained so long as we are con-scious of exertion. If I make an ef-fort to be humble, then very clearly I have not reached the perfect humil-ity, for if I had, that grace would sit upon me as unconsciously as do my garments. "Moses wist not that the skin of his face shone while he talked with Him."—Dr. W. M. Taylor.

No Reason For Envy. We who have the Sun need not envy those who saw the Star.

Americans with money and leisure certainly have within the United States a wonderful variety of climates among which to choose a place of sojourn. While some of our fortunate fellow citizens and citizenesses are enjoying sea bathing in the South others will be skating, snowshoeing and coasting in the North. Surely muses the New York Herald, we live in a great country!

### WHAT WIFE SAYS "GOES,"

But It Sometimes is Bad For the Painting.

When a property-owner knows nothing about paint it is bad for the property-owner, and bad for the painter. It would not be so if the property-owner would always hire a skilled painter and then really leave everything to him. But the houseowner so often fools himself on one or the other of these things.

The skilled painter in every community has some of the most incompetent competitors that ever vexed a conscientious workman or contractor, and the incompetents get jobs generally by working cheap. In the next place, when the skilled painter is hired, they do not leave everything to him, as so many property-owners boast they do.

They interfere most ignorantly and most fatally. They insist sometimes on using paint materials without investigating whether they are good or not. Or perhaps they insist on the

painter's hurrying the work. "I'm not going t have this painter's mess around my louse a month," the wife says, and what wife says goesat the cost of a lo: of wasted painting

If the painter stays away a few days to allow the paint to thoroughly dry the owner says: "That painter's neglecting this work—guess he's sidetracking me for Jones' work. I won't stand it."

What chance does a painter have to do good work for a man who is continually nagging at him and otherwise handicapping him (without meaning it, of course)? A poor job is the inevitable result of such interference.

Poor painting costs the houseowner money-don't forget that. It might pay you to get the practical paint book, painting specifications and instrument for detecting paint adulterants, which National Lead Co. are offering under the title of House Owner's Painting Outfit No. 49. Address National Lead Co., 1902 Trinity Bldg., New York City. This company do not make paint (they leave that to the painter to do) but they make pure white lead ("Dutch Boy Painter" trademark kind), and they can tell you how to save money by securing durable painting.

## Want a Telephone? HOW TO BUILD RURAL TELEPHONE LINES

### This Book Sent Free

### If you do you can get it. If you are anxious to get into closer touch with your friends, with the family doctor with the store, with the post office, or with the cotton buyer, you can do it with a telephone at hand. If you want to make the farm a more livable place, if you

want to protect your home, you can do it by installing a telephone. If you will cut out this advertisement, write your name and address on the margin and mail it to-day to our nearest house, we will send you at once a copy of our Free Bulletin No. 101 on

### "How to Build Rural Telephone Lines"

This Bulletin explains clearly how a rural telephone system is built and operated, and it also contains full information as to costs.

In a Farmer's Mutual Company a few day's labor and a cash investment of about \$25. per subscriber, will purchase all material and build an absolutely standard system.

A Rural Telephone is an investment, not an expense. The telephone which enables you to sell ten bales of cotton at 1/2 cent per pound more than the traveling buyer offers you, has paid for its entire cost. If you have some hay down all ready to go in, it is worth something to have a telephone with which to call on Neighbor Smith "for a lift" before the storm breaks.

The Rural Telephone pays for itself each year and we have brought the initial cost within the reach of every farmer. Present prices are especially favorable and thousands of Farmers' Mutual Companies are now organizing so as to build their lines this Spring. Write us to-day.
